Please Remove the "Username". The "Email" would be considered the User Name which the customer will use to log into the system. Please replace the "Username" with the Email Address.

It appears the "Fecha de Nacimiento" was fixed and now shows the year from 1960. Thank you. Also, it appears once the "Aceptar" button is clicked, the page refreshes and the Spanish Text provided appears. Thank you.

Error received After Link is clicked and I am taken to the Login Screen. Not sure why ?

Can we please add a Button here for Customers who have forgotten their password? On Click, I’m thinking that the customer will be asked for their email address and then an email will be sent the customers email address on file where they can reset it however, if you have a better recommendation that will be ok.
