On the front end of the website, you can test the following sections:

1. User registration along with the email authentication.

2. User login.## - - Works great... Will this "Time out" after a certain period of non use? If we could make this automatically log out after 20 minutes of non-use, it would be good for security purposes.

3. Alerts section (Work- In- Progress). ##.. Still does not appear to be working. will review again once you advise it is finished.

On the admin section, you can test the following sections:

1. User module: add/edit/delete (Kindly confirm the following user status

"Waiting for the activation", "Active", "Suspended", "Expired"). ## Yes, these are correct.
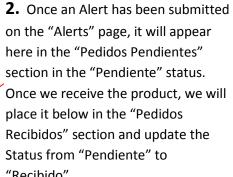

2. Alert module: add/edit/delete (Kindly confirm the following user status

"Pending", "Despachar / Ship", "Pago Pendiente / Awaiting Payment",

"Transfered to national postal service", "Delivered / Entregado"). ## The Alert module should only contain the statuses of "Pendiente" and "Recibido" Once a customer leaves an "Alert", the status will be placed in "Pendiente" by the system automatically. Once the Products are received in our office, the product will be updated by an iCargoBox admin to "Recibido" Status. The "Alert" section should only contain these 2 statuses.

I believe there may be some confusion on the statuses and where they are located. I've included the below screenshot of the Main Customer Screen after initial order to assist. If you have any questions, please let me know and we could possibly talk it through via skype.

1. Customer Submits an "Alert" via the "Alerts" Page.

2. Once an Alert has been submitted on the "Alerts" page, it will appear here in the "Pedidos Pendientes" section in the "Pendiente" status. Once we receive the product, we will place it below in the "Pedidos Recibidos" section and update the Status from "Pendiente" to "Recibido".

PEDIDOS PENDIENTES	ENVIOS Y PAGOS	CENTRO DE MENSAJES		ALERTA	

Fecha	Descripción	Declaración	Notas	Estado	
	APPLE IPAD NEW	$249.00		Pendiente	⊗
6/2/2014	2 POLO SHIRTS AND 15 PAIRS OF PANTS	$100.00	Please ship out as soon as is received	Pendiente	⊗
2:45:40 PM	BROOKSTONE SPEAKERS WITH TOWER	$159.00		Pendiente	⊗
6/2/2014 2:45:40 PM	AMAZON SHIPMENT. 2 PAIRS OF NIKE SHOES	$50.00	Please ship out as soon as is received	Pendiente	⊗

PEDIDOS RECIBIDOS

Fecha Recibido	Descripción	Declaración Recomendado	Cantidad	Peso (lbs)
6/2/2014	APPLE IPAD NEW	$249.00	1	1.25

3. An iCargoBox admin will update this section (Place the Product Received, the Quantity, The weight, Date it was received, Recommended Declaration Amount and any Notations). The customer will have the functionality to click on the "Despachar" button which will Consolidate those shipments into one. This will then appear in the "Shipments" page with all of the proper calculations. This can also be performed by an admin iCargoBox user.

Can these 2 modules ("Pedidos Pendientes" and "Pedidos Recibidos" be combined into one in the Admin Module? This will allow the iCargoBox admin to easily see what a customer has ordered from the "Pedidos Pendientes" section and then Copy and Paste those products to the "Pedidos Recibidos" section as they are received in our office.
